Introduction

- This will be a far-ranging and sweeping session that covers a lot of ground and strikes to the heart of what this conference is about.
- Although this session is not just about Data Standards United I will start there.

Data Standards United

Data Standards United (DSU) is a partnership among standards bodies and standards stakeholders, that looks to support major coordinating initiatives- including, as an example, the work and efforts of the T3 Innovation Network.

What is DSU? (The Mission)

Data Standards United is not a new organization, but a voluntary partnership based on shared values.

Establish a sustainable collaborative of Data Standards Development Organizations (SDO) & their stakeholders across education, employment, and training sectors to support the global education & workforce digital ecosystem

Who is DSU? (The Signatories)

www.uschamberfoundation/t3-innovation

What is DSU Up To?

- The signatory and associate organizations in DSU are engaged and participating together to coordinate and make the entire standards ecosystem work.
- DSU also looks to support major initiatives that further that goal LIKE the shared infrastructure, JEDx, LERs, the JSON-LD Transcript development, and the Resume Standard development, among others.

Panelist Remarks

P-20W+ Capability Model

Open Discussion and Questions

What Does United Mean?

Being “United” could show up in various ways:

- principles and values
- business foci
- process foci
- technology foci
- organizational and management infrastructure
- financial infrastructure
