

Unleashing the Potential: Exploring the Impact of AI and Large Language Models on Education

SESSION MODERATOR

Alex Jackl

Founder & CEO, Bardic Systems

CTO, Landmark Worldwide

Interim Tech Lead, A4L Community

PESC Board Member

Data Standards United Advocate

Introduction

- This session aims to delve into the revolutionary role of Artificial Intelligence (AI) and Large Language Models (LLMs) in shaping the future of education.
- The session will be an open discussion to explore the opportunities, challenges, and best practices in integrating AI and LLMs in educational settings.

Opening Comments

- Initial framing comments by:
 - Greg Nadeau - PCG
 - Steve Smith - A4L and Cambridge Public Schools

Round Table Discussion

- Topics can be generated at the table or in response to the framing comments
- Each table should pick a:
 - Reporter - who will report out at the end of this part
 - Moderator- who will just facilitate sharing and make sure everyone's voice is heard, and,
 - Secretary- to capture what gets created.
- Panelists will join tables, moderator will circulate and gather themes

Reporting Out Discussions

- Have the reporters report out each table's conclusions, outcomes, and questions
- Have time constrained discussion after each report.
- Remember: This is an inadequate time to deal with this issue but we will add this to the growing and ongoing public discussion about this.
- Please give or send your notes to Jen.

Concluding Statements

- Concluding comments from moderator and/or panelists
- 1-2 concluding comments from the floor
- Transition to Next Sessions
