

Bridging the Gap: Maximizing Value and Ease in Standards Adoption

**We WANT
your input!**

SESSION PRESENTERS

Alex Jackl

Jim Goodell

Jim Ireland

How do we enable Learning Journeys?

**We WANT
your input!**

Standards Landscape

We can say a lot about the value of different standards orgs adopting each other's stuff and how different communities they serve benefit from knowing the parts from others are compatible and defined by the most authoritative communities.

- HR Open Assessments and IEEE xAPI
- CEDS terms in HR Open & PESC & A4L
- HR Open and PESC terms in CEDS
- A4L API and PODs used to transport education and workforce data using multiple standards

Table Discussion (for 15 minutes)

Potential Questions to Address:

- Demonstrating how standards add value, how can we close the gap between standards?
- What have you gotten so far after our first day?
- Some notes from the last conference:
- More direct collaboration between the standards bodies
- Creating more shared tools (making standards adoption easier)
- incorporating Privacy

Table Read Outs and Close

THANK YOU!
