Student Data Privacy Services

Empowering K-12 schools with the knowledge and tools to protect student and staff data

Work With Learn21

We've Got Your Back

As a team of teachers, administrators, and tech directors with actual classroom, edtech, and admin experience, we bring our expertise to help fellow educators in a practical and impactful way.

Expert Experience

We are an industry leader in student data privacy. We routinely lead webinars, conferences, and panels on SDP and members of our team are certified Cybersecurity Rubric Evaluators.

Trusted Partners

Learn21 is a state affiliate for the Student Data Privacy Consortium (SDPC) and a state chapter for Consortium of School Networking (CoSN) - organizations that are committed to data privacy.

Custom Engagements

We approach each of our engagements as a new opportunity to meet the needs of our clients. Our SDP services are tailored to fit the needs of individual schools and districts with which we partner.

Our Student Data Privacy Services

Scary Apps Workshop

Interactive sessions to help participants understand the impact of privacy policies on students. Suitable audiences includes anyone who works with students.

App Reviews

Personalized consultations to enhance schools' privacy policy assessments.

SDP Privacy Development Workshops

Guiding schools in developing or refining their student data privacy policies. Suitable audiences includes anyone who manages data privacy at the building or district level.

SDP Audits

Comprehensive SDP audit to assess and improve school or district data privacy practices.

Data Privacy Management Services

Comprehensive support in managing data privacy agreements and the SDPC Registry.

Virtual Helpdesk

On-demand expert advice on student privacy matters.
