Student Participation in Programs

Accurate Reporting

Student participation allows correct identification of a student's program status on any given day.

Increased Funding

Accurate counts eliminate under reporting, which increases funding for Federal Programs and state aid.

Improved Program Data

Details of student participation can provide clearer insights to effectiveness of program success and reduce reporting burdens.

Annual Programs

Programs in which the student must have a new participation record each year.

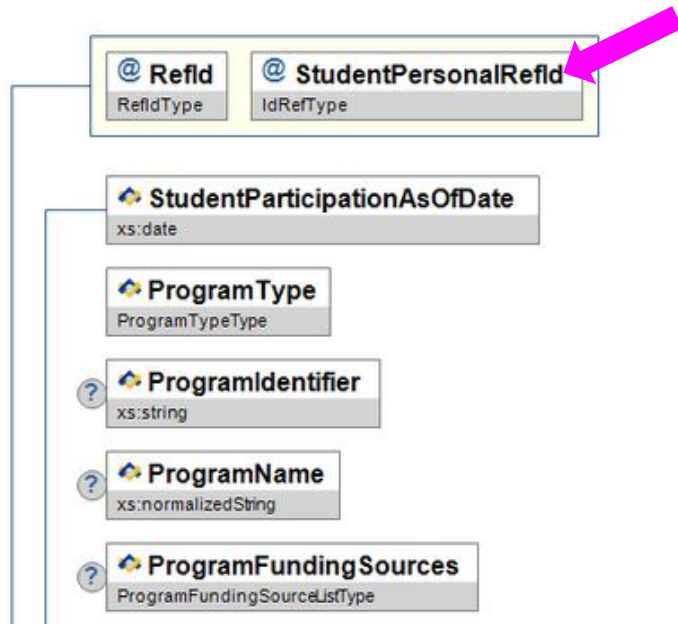

Multi-Year Programs

Programs in which the student most likely will participate for an extended period of time spanning more than one year.

Student Participation

Student Participation is related to the student independent of the school in which the student is enrolled. The student participation record follows the student during moves within the district.

Program Dates

The **ProgramPlacementDate** is the date in which the student became eligible for, and was enrolled in, the program in your district.

The **StudentParticipationAsOfDate** is the effective date (NOT the entry date) of this StudentParticipation instance for the identified student and program. Each time there is a change to the student's program participation profile, a new instance of this object is to be generated with the appropriate StudentParticipationAsOfDate and a new RefId.

Vendor Support

New development in each
SIS application

Develop understanding of
the object

Clear business rules and
testing

District Support

Intense amount of training,
guidance, and support

Data quality validations with
direct feedback for districts

Child Nutrition, EL, and
Bilingual were challenging

Mitigation

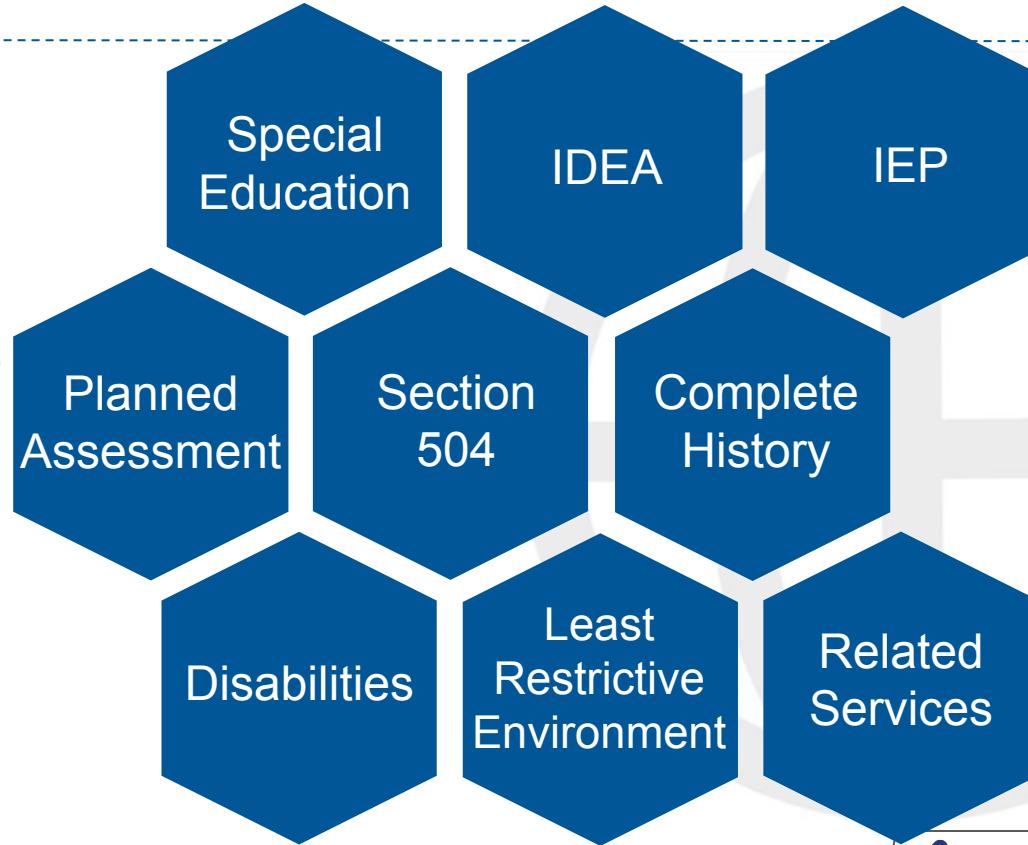

October 1st reporting
delays

Continued to work until all
schools had correct data

Repetitive training and
open office hours

3rd Party Special Education

Integration with PCG, 3rd party application for Special Education, passes data back to OSD's Student LDS through Student Participation and Student Placement objects.

Transformation

Districts were willing to invest the work for a better outcome

Improvement of data quality, checks and balances

Next year will be so much better!
