Five EdTech Quality Indicators

Easing the Burden on Schools

Seven leading education organizations have pledged to work together to establish and drive awareness of five Quality Indicators for #EdTech & #AIProducts.

ALL FILTERS

1. Find

Search reliable and up-to-date information on solutions that support teaching and learning.

2. Compare

Build your short list, and compare products using the criteria that matter most to you and your team.

3. Evaluate

Use our evaluation tool to answer questions about your educational context and narrow your list to the best-suited products.

4. Validate

Support your decision-making with validations from trusted organizations across critical quality indicators.

SETDA Commitment

*SETDA will develop **sample RFP language** for state procurement processes that includes recommended validations aligned to the Five Edtech Quality Indicators.*

Committee Feedback

- Resource cannot be a full “RFP”
- Develop adaptable questions
- Narrow focus of “edtech”
- Examples are not endorsements

*Image developed with ChatGPT with prompt
“Make a cartoon graphic of a referee calling time out.”*

Integrating the Five EdTech Quality Indicators
Into State Procurement Processes

How Do I Use It?

- Select indicator(s) most relevant to context
- Adapt model questions
- Examine validators
- Incorporate into various procurement vehicles

setda.info/edtechprocurementguide

- Data security measures
- User authentication
- Compliance with laws
- Transfer opt-outs
- Badges & certifications

setda.info/edtechprocurementguide

Evidence-Based

- Logic model
- Independent research
- ESSA tiers of evidence
- Contexts & populations
- Continuous monitoring
- Mutual accountability
- Badges & certifications

setda.info/edtechprocurementguide

- Student demographics
- Bias and ethics
- Accessibility
- Universal Design for Learning Framework
- Badges & certifications

setda.info/edtechprocurementguide

- Tailoring instruction
- Providing feedback
- Assessing knowledge
- Assigning grades
- Family communication
- Teacher collaboration
- Context variability
- User feedback
- Badges & certifications

setda.info/edtechprocurementguide

- Unique identifiers
- Data transmission & reception
- User costs
- APIs
- LMS/SIS compatibility
- Technical support
- Data standards
- Badges & certifications
